Thanks Becky. Is it possible to do this with a wider view that shows the Humble Prospect too? That is the only other porphyry copper prospect that I know of, so we would not be interested in any of the other mines.

Which view do you think looks better?

Subject: pebble maps

Hi Phil,

Here is a map of claims and twups in the pebble area. Let me know if you like the dots or shaded sections better and I will make one for the Humble area. Is there any other data you want displayed on these maps?

Becky
